FAS - LPG Technology
Experience - Service - Quality

Oil and LPG Distribution Chain

FAS Flüssiggas-Anlagen Salzgitter:

Company FAS Flüssiggas-Anlagen GmbH, Salzgitter/Germany was founded in 1975 as commercial enterprise for LPG equipment (propane / butane). During the last four decades FAS Germany progressed to become one of the leading manufacturers of high quality LPG equipment as well as of components for mobile and stationary bulk plants.

Today FAS Germany is presented in all important markets within Europe, Africa, Middle East and Asia.

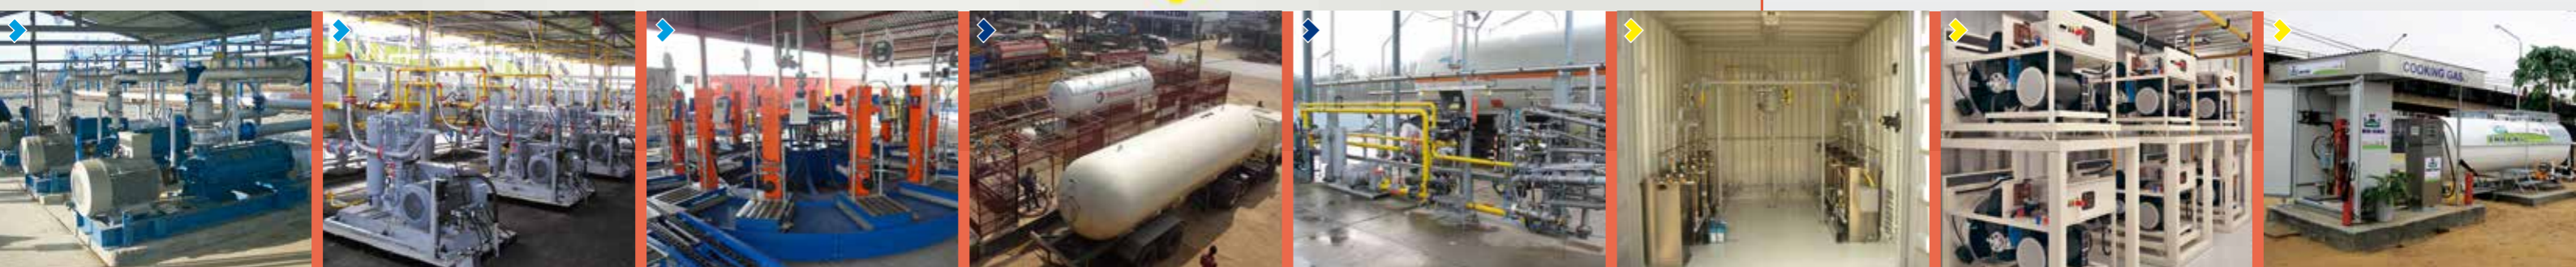

Mission and Vision

It is our mission to encourage a safe handling of LPG as an energy source by delivering the complete equipment.

We are driven by our vision. With this vision always on our mind, we set the ambitious goal to become the leading company for LPG products and accessories.
